

**STATE LEVEL BARRIERS**  
(Local Area training session - May 20, 2008)

Identified Barrier	State Integration Team Member(s) Assigned
Monitoring at state level has to change (going to monitor IPs and #'s of co-enrollments?) <ul style="list-style-type: none"> <li>• Timing eligibility (WIA) {when begin co-enrollment?}</li> <li>• E-files rather than hard copies</li> </ul>	Susan Weidenbach Linda weaver Melany Manry Armand Corpolongo
Personnel issues (classification, job duties, etc.)	Jeff Montague
Policy refinement (other policy adjustments needed to meet common measures)	Susan Weidenbach Linda weaver Melany Manry Armand Corpolongo
Refine KW.com - If mass co-enrollment is the aim and the enrollment juncture is to be much sooner/quicker, the mechanism to trigger WIA enrollments may need to be more automated, since it's currently manually triggered	Melany Manry Christine Bohannon
Data validation - As enrollment protocols change and requirements for maintenance of hard case records are reduced, those doing data validation need to be in full agreement so that local areas are not held to different standards as to when a hard file and supporting documentation is expected to be created and maintained when undergoing data v and monitoring.	Melany Manry Christine Bohannon
Training expenditure policy <ul style="list-style-type: none"> <li>• If moving away from training to skill development will it be hard to meet 35%?</li> <li>• Might depend on definition of training (if do less ITAs it may be hard to demonstrate 35%)</li> <li>• On surface doesn't look like it will be too hard to meet, but if they raise it then what?</li> </ul>	Susan Weidenbach Linda weaver Melany Manry Armand Corpolongo
What is federal view of the integration model when they are complaining of ITAs? {Sandi said their issue really was training and it was translated into ITA, but was really just training. }	Susan Weidenbach
State needs to provide detailed list of what they want in the local plans.	Susan Weidenbach David Brennan
Will the state plan need to be modified to include Integration? <i>Sandi recommended: Get integration plans done first then figure out how to modify local plans and state plan; do a one page piece that goes in the front of the plan that refers people to the pieces that still work in the plan and then they read the addendum. Just identify which pieces are relevant.</i>	Susan Weidenbach
What other training can/will be offered to local areas?	David Brennan
Need to clarify that WP staff may do more than labor exchange and that they are not the only ones who can provide labor exchange.	Susan Weidenbach
